# Have You Heard From Maine?

The News Grows Better and Better.

The Republicans Elect Three out of Five Congressmen.

Have a Large Majority in Both Branches of the Legislature.

Republican Governor Elected by a Small Majority.

The Effect the News of the Last Few Days had upon the Democratic Rooster

Special Dispatch to the NORTHERN TRIBUNE.

DETROIT, Mich., Sept. 17.—Present indications are that the Republicans elect the Governor by a small majority, with a few towns yet to hear from.

And still the ball keeps rolling. Maine adds her verdict, at the polls, to that of Oregon and Vermont in favor of the Republican party. The election in that state last Monday, resulting in a victory for the Republicans, notwithstanding the lavish expenditure in money on the part of the Democrats in their endeavor to carry the state for the fusion ticket. The Democratic papers, with their usua! to carry the state for the fusion ticket. The Democratic papers, with their usual cheek and audacity, have been indulging in great rejoicing over an imaginary victory, but they find they have been making merry over their own funeral. The Republicans have elected governor, three out of five representatives in congress, and have large majorities in both branches of the legislature, which secures for the party a United States Senator for six years, from March 4th, 1881. The Legislature stands, according to the latest reports, as follows:

Senate—Republicans, 21; Fusionist, 10. House—Republicans, 82; Fusionists, 67 and two ties.

and two ties.

The result in Vermont so alarmed the Democracy that the national committee of that party at once knocked in the head of their "bar"!" and flooded the larger cities with money, to purchase votes and by this means succeeded in reducing the Republican majority but did not succeed in capturing the state as they anticipated. It is reported that S. J. Tilden sent \$20,000 into the First Congressional district to defeat Reed on account of the scathing cross-examination gressional district to deteat Reed on ac-count of the scathing cross-examination giving him before the Congressional committee in New York and now Sammy mourns for his \$20,000 and will not be

## Greenback Meeting.

The Greenbackers have at last aroused The Greenbackers have at last aroused from their lethergy, and Wednesday night their campaign was opened by a speech of C. S. Hampton, of Little Traverse, who may be considered the apostle of Greenbackism in Northern Michigan. Although the meeting was announced only the day previous, there was a good audience at the Town Hall to hear him. The meeting was called to order by F. M. Sammons, who introduced the speaker in a few well timed remarks. order by F. M. Sammons, who introduced the speaker in a few well timed remarks. Mr. Hampton discoursed at some length upon the principles of the Greenback party, giving the reasons for the faith that was in him, in a very logical and interesting manner, which was highly appreciated by the members of the Greenback party who were present, and who manifested that appreciation of many of his strongest points by hearty applause. There I were many Republicans and Democrats also present, and when Mr. Hampton scored a point against the Democrats the Republicans would applaud, and vice versa, so between the members of the three parties present, Mr. Hampton was quite unanimouspublicans and Democrats also present, and when Mr. Hampton scored a point against the Democrats the Republicans would applaud, and vice versa, so between the members of the three parties present, Mr. Hampton was quite unanimously applauded, and we are glad to say, went away well pleased with his reception here.

### OUR RAILROAD.

onosals for L.s Construction Advertised for. Work to be Commenced

We can now count the time by months when we shall have railroad connection with the outside world. The railroad from Gaylord to Cheboygan is to be pushed forward without delay. Already General Manager Ledyard has advertised for bids for grading, bridging and tieing the road from Gaylord to this place. The TR BUNE is informed by those who are in business relations with the company that the specifications will require the contractors to have the road completed to Cheboygan by July 1st, 1831, and that to Cheboygan by July 1st, 1831, and that it is the intention to complete the line to Indian river this season, so that connection with Cheboygau can be made that way by early spring. The propos-als for the construction will be opened at Detroit, September 30th, after which time work will be commenced at once, and probably, at several points along the line, and pushed with energy.

—The tug Cygnet has been out on ways during the week at Amiot's ship yard, undergoing some repairs.

A Horrible Crime.

It is our duty to chronicle the most horrible crime ever committed in this county. The details are too horrible and disgusting to appear in print. It has come to light that one John Cadotte, some few weeks ago committed rape upon the person of two little girls, his grand-daughters. The children are about seven and eleven years of age. As soon as the terrible crime was discovered, Mrs. Johnson, an aunt of the girls, came and entered a complaint before before Justice Sutton, who issued a warrant for his apprehension, and placed it in the hands of officers, who are in search of the man, It is thought he may have gone to Canada, but if possible he will be apprehended.

Cadotte lives up on the shore, near Old Mackinaw, and the little children lived with him, their parents being dead. It is said by the officers who went in search of him, that the children barely had a seign and Hale arrived last Saturday afternoon, and loaded lumber at this port for Chicago, and were towed to Chicago by the N. T. steamers.

—The schooner City of Green Bay, arrived Monday and loaded rail-road ties for Chicago, from Wetmore & Lathrop. She only returned a few months since from srit water where she had been sailing for three or loar years.

—The Northerner, one of the largest and finest steam barges on the lakes, lord-delumber here for McArthur, Smith & Co. this week. She first took a load of rail-road iron to the Point and then came here for lumber to Chicago. So great was her length that she had to secure the assistance of a tug to wind, and then had to get in the widest point in the river.

Gratinde Made Manifest.

E. W. Voigt, Esq., of Detroit, and his family were rescued from the Marine City by the tug Vulcan, and he has made his gratitude manifest by presenting the officers and crew of the tug with gold and silver watches and chains, respectively. The officers who were thus remembered were, Thomas Hacket, captain; Robert H. Sunderland, mate; Patain; Robert H. Sunderland A large number of men are at work upon the new furnace at St. Ignace. Foundations for the building are being excavated, several large buildings are in process of erection and a first class dock is being constructed, Work in every department is being pushed with great energy.
